Lido	18

The colours are dynamic,
fresh and truly unique.

Dear valued customer

It is with a great deal of pride that we introduce our new Madera Range of melamine colours. This new range of colours will be stocked exclusively by Davidsons Boards and Kayreed Board and Timber. The eight colours included in the range were hand-picked from hundreds of options and are based not only on current European trends, but also SA trends. The colours are dynamic, fresh and truly unique. The range is E1 certified and adheres to strict environmental codes.

We invite you to have a look and consider one of these for your next project.
